

WALKING PATHS ON THE UNIVERSITY OF WAIKATO CAMPUS

East Hamilton Sport and Recreation Hub

The East Hamilton Sport and Recreation Hub project is a partnership between Hamilton City Council, Sport Waikato and the University of Waikato and is also supported and primarily funded by Sport NZ. The goal is to attract stronger participation and greater utilisation of grounds and facilities from within the community.

Lakeside Walks

There are three lakes on campus, Oranga, Knighton and the Chapel. All lakes have pathways surrounding them, with length of approximately 0.5 km each. Special features include a collection of plants from the Waikato Basin, grouping of native podocarpus, the Magnolia grove and a collection of semi mature and mature exotic trees.

Garden Walks

This track includes the area of Japanese gardens, chapel lake banks, and G block, approximately 1.1km. The area contains a variety of plants, both native and Japanese origin. This area is well worth visiting in the spring when the flowering cherries are in full flower and the rich colourings of the dwarf Japanese maples.

Fitness Trail and 5km Route

For those feeling a bit more energetic, try out the Fitness Trail, approximately 1.6km. There are four sets of activities designed to work different parts of your body including step ups, vertical jumps, parallel bars, and chin ups, which are marked in the map. There is also a 5km route, with a regular Campus Fun Run event taking place on Monday's through the summer months.

This map was created by Rini Mayasari, postgraduate student in the Department of Geography, Tourism and Environmental Planning at the University of Waikato, in partnership with the East Hamilton Hub Project. Photography by Rini Mayasari.

This project is supported by Sport Waikato and the University of Waikato.
